## Elevating spaces, uplifting surface experience!

Reshaping spaces by constantly enhancing surroundings with new possibilities. Sunhearrt promises the amalgamation of innovation and style, crafting high-end ceramic excellence. It is about taking space to a higher level, making it more appealing and adaptive.

Our focus lies in transcending the ordinary, where every tile, every design, echoes the essence of sophistication and durability. Sunhearrt stands as a beacon for those seeking not just elegance but an enduring legacy woven into the very fabric of their spaces.

## Tiles

Flooring the extensions of your dream space, tiles from Sunhearrt are a great addition to every ambience. With their simplistic elegance and finesse, our tiles introduce modernity and grandeur by manufacturing the best alternatives and replacements to natural surfaces. This collection, thence, is the perfect choice for 'architecting' the spectacular!

# Making Of axiSTONE

Crafted with precision and passion, every Axi Stone slab undergoes a meticulous process that transforms raw natural elements into sophisticated surfaces. From the selection of fine materials to advanced pressing and firing techniques, each step is designed to enhance both beauty and durability. Here's a closer look at how Axi Stone comes to life—where innovation meets craftsmanship to create surfaces that redefine modern design.

## The Fine Dust

Each Axi Stone slab starts with carefully chosen, high-quality raw materials. These materials are crushed into an even powder, which forms the base for strong and durable surfaces.

## Variegated Grains and Chips

We mix different sizes and colors of natural mineral pieces, chips, and color pigments into the base. This step creates the special look and feel of each slab.

## The Convergence

The mixture is carefully layered and pressed, ensuring all parts fit together evenly. This helps maintain the consistency of color and strength throughout the tile.

## Pressure And Firing

The slabs are pressed with high force and baked at very high heat. This hardens the slab, joining everything into a strong, smooth piece with an elegant finish.

# Formats & Thickness

Axi Stone slabs are available in an expansive 80x240cm size with a solid 15mm thickness, making them perfectly suited for both horizontal and vertical installations across spaces. With ten superior finishes, this collection enables versatile aesthetic and tactile experiences. The large format reduces joints for seamless beauty and a powerful visual impact in any interior style.
